EXECUTIVE OVERVIEW

Engineering High-Performance Web Applications, Scalable Backend Systems & Modern Applications.

15+ years of verified expertise architecting enterprise web systems, custom full stack applications across Node.js, Python, C++, TypeScript, React, and PHP, scalable WooCommerce & Shopify e-commerce engines, and high-conversion UI/UX workflows. Complemented by secondary specializations in Google Ads, technical SEO audits, and 3D architectural brand activations.

EXPERIENCE: 15+ YRS WEB PLATFORMS: 35+ LIVE SITE HEALTH: 90%+ AVG CAMPAIGNS: 20+ MANAGED

CORE ECOSYSTEM

PLATFORMS & MARKETING SUITES

WordPress (CMS & Themes)

- Elementor Pro (Visual Builder)
- Adobe Creative Cloud (UI/UX & Design)
- Artificial Intelligence (AI & Copilots)
- Google Analytics 4 (GA4 Telemetry)
- Google Ads (PPC & Search)
- Search Console (SEO & Indexing)
- PageSpeed Insights (Core Web Vitals)
- Looker Studio (BI Dashboards)
- Meta Ads (IG / FB Social)
- Google Business (Local SEO Profile)
- Google Ecosystem (Tag Manager & Cloud)

SYSTEMS ARCHITECTURE

Technical Architecture & Systems Engineering

Flow Ops (Optimal Nexus Pro) - Workflow Orchestration Engine

Enterprise workflow automation platform, visual builder, API integrations & execution telemetry

Scope: Engineered the comprehensive technical architecture and responsive full-stack interface for Flow Ops (Optimal Nexus Pro), an enterprise automation and orchestration suite. Developed a modular node-based workflow builder, custom integration connectors, real-time execution run logs, template repositories, and RBAC team collaboration.

`React` `TypeScript` `Node.js` `REST / Webhooks` `Tailwind CSS` `System Architecture`

BTV BOS - Enterprise AI Business Operating System

All-in-one AI-driven ERP & operating system: CRM, Projects, Finance, IoT Devices & Copilot

Scope: Architected and implemented BTV BOS, an end-to-end AI-powered business operating system consolidating customer lifecycle CRM, project delivery pipelines, kanban task operations, double-entry financial accounting, IoT hardware device monitoring, and an autonomous AI Copilot.

`React` `TypeScript` `Node.js/Express` `AI Copilot` `PostgreSQL` `Tailwind CSS`

AI BOS - Systems Architecture & Distributed Topology

Architectural blueprints, autonomous agent orchestration & distributed intelligence topology

Scope: Formulated the core architectural specifications and distributed system topology for AI BOS. Details neural model routing layers, vector retrieval pipelines, asynchronous event queues, and multi-tenant isolation layers designed for high-availability enterprise environments.

`System Architecture` `Distributed Systems` `UML / Blueprints` `Vector Pipelines` `Cloud Topology`

Atrium - Operations & Collaborative Knowledge Platform

Collaborative enterprise workspace, interactive operational canvas & multi-user knowledge graph

Scope: Engineered Atrium, a real-time collaborative operations platform and knowledge graph for modern engineering teams. Features modular workspace nodes, dynamic document linking, team alignment dashboards, and low-latency state synchronization.

`React` `TypeScript` `WebSockets` `Tailwind CSS` `Real-time State`

Production Platforms & Commercial Launches

Hologram Monkey - Advanced Holographic & Visual Tech

Hologram Monkey (United Kingdom) [BULLET] Web & E-Commerce

Engineered the UK corporate web platform for Hologram Monkey, leaders in commercial holographic advertising, 3D hologram display boxes, and spatial display technology. Built with high-contrast futuristic dark-mode styling, responsive booking funnels, and multimedia showcases.

Sauer Attorneys & Conveyancers - Property Law Specialists

Sauer Attorneys & Conveyancers [BULLET] Web & E-Commerce

Designed and engineered the authoritative legal firm web portal for Sauer Attorneys & Conveyancers, premier property law and conveyancing specialists. Crafted with refined corporate typography, structured practice area guides, client onboarding workflows, and inquiry channels.

Chronos Medical - Surgical Systems & MedTech Portal

Chronos Medical Technologies (South Africa) [BULLET] Web & E-Commerce

Engineered the official surgical technology web portal and clinical systems catalog for Chronos Medical South Africa. Features 4 specialized clinical discipline showcases, supplier procurement pathways, quote request workflow, and full SAHPRA regulatory alignment.

Lulu J Boutique - Curated European & Italian Fashion

Lulu J Boutique [BULLET] Web & E-Commerce

Developed the luxury digital storefront and visual merchandising catalog for Lulu J Boutique, presenting curated Italian and European fashion collections. Engineered seasonal collection showcases across jerseys, bags, dresses, tops, and jackets, accompanied by direct WhatsApp VIP styling concierge.

SilvaShaw Technologies - Enterprise Telecommunications & Managed IT

SilvaShaw Technologies [BULLET] Web & E-Commerce

Architected and built the corporate telecommunications and managed IT services portal for SilvaShaw Technologies. Highlights end-to-end IT support for 1,800+ clients with 99.9% uptime SLA, featuring interactive free IT assessment lead generation and reseller acquisition.

AgriAbout - Sustainable Agriculture Digital Publication

AgriAbout Magazine [BULLET] Web & E-Commerce

Engineered the digital magazine publishing platform and interactive monthly edition archive for AgriAbout. Provides free access to sustainable farming articles, specialist agronomy research, sponsor advertising media packages, and device-optimized reading experiences.

Spina Vita Chiropractic - Clinical Practice & Patient Booking

Spina Vita Chiropractic Clinics [BULLET] Web & E-Commerce

Engineered the clinical practice web application for Spina Vita Chiropractic, operating dual multidisciplinary practices in Sunninghill and Saxonwold. Features streamlined online appointment scheduling, treatment condition guides, medical aid pre-approval guidance, and WhatsApp reception.

Corporate AV Integration - Boardroom & Commercial AV Solutions

Corporate AV Integration (CAVI) [BULLET] Web & E-Commerce

Engineered the commercial web platform for Corporate AV Integration (CAVI), certified audiovisual engineers providing hassle-free boardroom automation, video conferencing, video walls, and corporate sound across South Africa, Africa, and Europe.

Skyworth South Africa Official Portal

Skyworth SA (Electronics & Technology) [BULLET] Web & E-Commerce

Engineered and administered the digital web presence for Skyworth South Africa, showcasing their leading 4K UHD and 8K Android TVs, soundbars, and smart device ecosystems. Focused on ultra-responsive UI, catalog performance, and search visibility.

Sinotec Consumer Electronics

Sinotec (South Africa) [BULLET] Web & E-Commerce

Delivered and managed the high-traffic web catalog for Sinotec South Africa, featuring smart TVs, digital displays, sound systems, and nation-wide retailer warranty registrations.

Chronos Medical - Surgical Innovation & Campaign

Chronos Medical Technologies [BULLET] Graphic Design & MedTech

Engineered the comprehensive digital brand identity and social media visual assets for Chronos Medical. Crafted precision 3D surgical instrument layouts, the DuraFrame system feature highlights, and engagement-focused Instagram Stories tailored for orthopaedic surgeons and hospital procurement teams.

Wits University Open Day 2025 Research Showcase University of the Witwatersrand (Wits Innovation Centre) [BULLET] Campaigns & Creative Design

Conceptualized and crafted the official mobile story campaign for Wits Open Day 2025 Research Showcase ("Where a century of discovery meets the next century of partners"). Designed targeted engagement cards detailing Wits historical milestones ("A Century of Firsts") and structured partner pathways for industry and corporate collaborators.

Digital Publishing & Commercial E-Book Collection Commercial Publishing & Educational Series [BULLET] Digital Publishing & Editorial

Designed a commercially successful collection of 11 publication covers and practical guides across artificial intelligence, machine learning, cybersecurity, digital marketing, personal finance, health, and lifestyle. Engineered to maximize click-through rate in digital marketplaces while establishing cohesive typography hierarchies.

Skyworth AI / Android TV Launch Campaign Skyworth SA [BULLET] Social Media & Brand

Directed multimedia design and social media campaign execution for Skyworth's flagship AI Smart Android TVs. Created arresting graphic visuals, video shorts, and interactive community posts that highlighted voice control and 8K cinematic viewing.

Skyworth @ Comic Con Africa Comic Con Africa & Skyworth SA [BULLET] Creative, 3D & Events

Spearheaded the 3D exhibition booth layout, architectural signage, gaming tournament backdrops, and live social media coverage for Skyworth at Comic Con Africa (Kyalami Convention Centre).

Skyworth @ Decorex SA Expo Decorex SA & Skyworth SA [BULLET] Creative, 3D & Events

Designed the high-end exhibition presence for Skyworth at Decorex SA (Gallagher Convention Centre, Midrand). Created illuminated curved pylon signage, 3D floor plan layout, and the "Win a 49-inch Android TV" visitor contest campaign.

Admiral Sportswear "Make It Happen" Campaigns Admiral Sportswear & Equipment [BULLET] Social Media & Brand

Engineered vibrant social media campaigns celebrating athletic empowerment. Created bold, high-contrast visual narratives ("Dream Big", "Level Up Your Game", "Let's Go") distributed across Instagram and Facebook channels.

VERIFIED HISTORY

Professional Timeline & Verified Credentials
